

DJILO BACOB Jisselin

Senior FullStack Engineer — 5+ Years of Experience

jcbacob@yahoo.fr • linkedin.com/in/its-cj/ • meetcj.me/en

PROFILE

Senior FullStack Developer with 5+ years of experience designing, developing and technically leading complex web solutions. Specialized in Vue.js/React, Laravel/Node.js and QA, I work across front-end architecture, back-end systems and team technical practices. Performance-, scalability- and UX-driven, I thrive in both product-focused and multi-project agile environments.

KEY SKILLS

Front-End	Vue.js, React, Tailwind CSS, Bootstrap, HTML, CSS, JavaScript, TypeScript
Back-End	Laravel, Node.js / Express.js, PHP
Databases	MySQL, PostgreSQL, MongoDB
Testing & QA	Cypress (E2E), PHPUnit, Postman, cURL
CI/CD & DevOps	Git, Docker, GitLab CI
CMS	WordPress, Shopify, Wix
Tools	Composer, npm, yarn, Jira, Trello, ClickUp, GitHub, GitLab, Figma, Adobe XD
Methodologies	SCRUM, UML, SOLID, Clean-Code, DRY, KISS
AI	Claude AI (Opus/Sonnet)
Languages	French: Native — English: Professional

PROFESSIONAL EXPERIENCE

Tech Lead Front-End (React)

INAIRIS — Freelance · Remote

Nov. 2025 — May 2026

- Took full ownership of the front-end of Melrys, an electronic invoicing SaaS platform for French businesses
- Restructured the React codebase into a scalable modular architecture, adopted as the team-wide standard
- Delivered pixel-perfect integration of 30 to 60 screens from Figma mockups (Tailwind CSS, Ant Design), including a full mid-project design overhaul with no impact on delivery timelines
- Implemented centralized state management with Zustand and REST API integration via Axios
- Defined and executed the testing strategy: E2E tests (Cypress) and REST API tests (Postman, cURL), significantly reducing production bugs
- Acted as technical bridge between design, front-end and back-end teams: proactively surfaced inconsistencies and improved delivery cycle efficiency
- Established development standards and documented technical practices adopted across the team

Tech Stack: React, Zustand, Axios, Ant Design, Tailwind CSS, Node.js, Prisma, PostgreSQL, Cypress, Postman, cURL, Git, GitHub, Trello, Figma, VsCode

Senior FullStack Developer (Vue.js / React / Laravel)

OBOSSO — France · Remote

Juin 2023 — Oct. 2025

- Developed new features across a portfolio of 5 to 10 group applications (business tools, SaaS, WordPress showcase sites and the Click&Go ride-sharing mobile app) within a team of 4 to 6 developers
- Contributed to the MVP of Click&Go, a ride-sharing and carpooling mobile application for the Cameroonian market (Flutter)
- Performed corrective and evolutionary maintenance to ensure the reliability of business-critical applications in production
- Improved functional, unit and API test coverage (Cypress, PHPUnit, Postman, cURL), visibly reducing regressions in production
- Wrote technical documentation and usage procedures, actively adopted across the entire team

- Designed and modelled the business logic of the FrenchCamp.fr platform (UML) — a French-language e-learning platform for digital professionals
- Built the full front-end (website & back-office) in Vue.js with Element Plus and Tailwind CSS, from Figma mockups
- Developed the back-end in Node.js / Express.js with MongoDB, and integrated REST APIs via Axios with Pinia state management
- Integrated payment processing via Flutterwave, PawaPay and Dodo Payments
- Set up E2E tests (Cypress) and API tests (Postman, cURL) — platform launched in production in November 2025

Tech Stack: Vue.js, React, Angular, Laravel, Flutter, Tailwind CSS, Bootstrap, WordPress, Node.js, Express.js, MongoDB, Docker, Cypress, PHPUnit, Postman, cURL, Git, Jira, GitHub, GitLab, Figma, VsCode — Flutterwave, Pinia, Axios

FullStack Developer (Laravel / Vue.js)

Freelance · Remote — Client Projects (Phoenix Studios & Design · MCAP)

Sept. 2020 — May. 2023

- Designed the application architecture and data model (UML) for a law firm (Cabinet Otti, Cameroon)
- Built a full secure business application covering contact management, client files, legal documents, invoicing and role-based access control (RBAC) — Vue.js, Bootstrap, UIKit, Laravel
- Integrated REST APIs (Axios) and carried out unit tests (PHPUnit) and API tests (Postman) across the full application scope
- Developed and maintained front-end features on existing web applications for US-based clients (MCAP, Texas)
- Created and redesigned e-commerce sites (Shopify) and showcase websites (WordPress, Wix) with SEO management, resulting in a measurable improvement in online visibility for multiple clients
- Managed multiple simultaneous projects independently with English-speaking stakeholders, consistently delivering on time with high client satisfaction and contract renewals

Tech Stack: Vue.js, Bootstrap, UIKit, Laravel, PHPUnit, WordPress, Shopify, Wix, Postman, Git, npm, Composer, Trello, GitLab, Adobe XD, ClickUp, VsCode

EDUCATION

2020

Professional Bachelor's Degree in ICT4D — Specialization: Information Systems
Security & Software Engineering
University of Yaoundé 1, Cameroon
